## NOTE

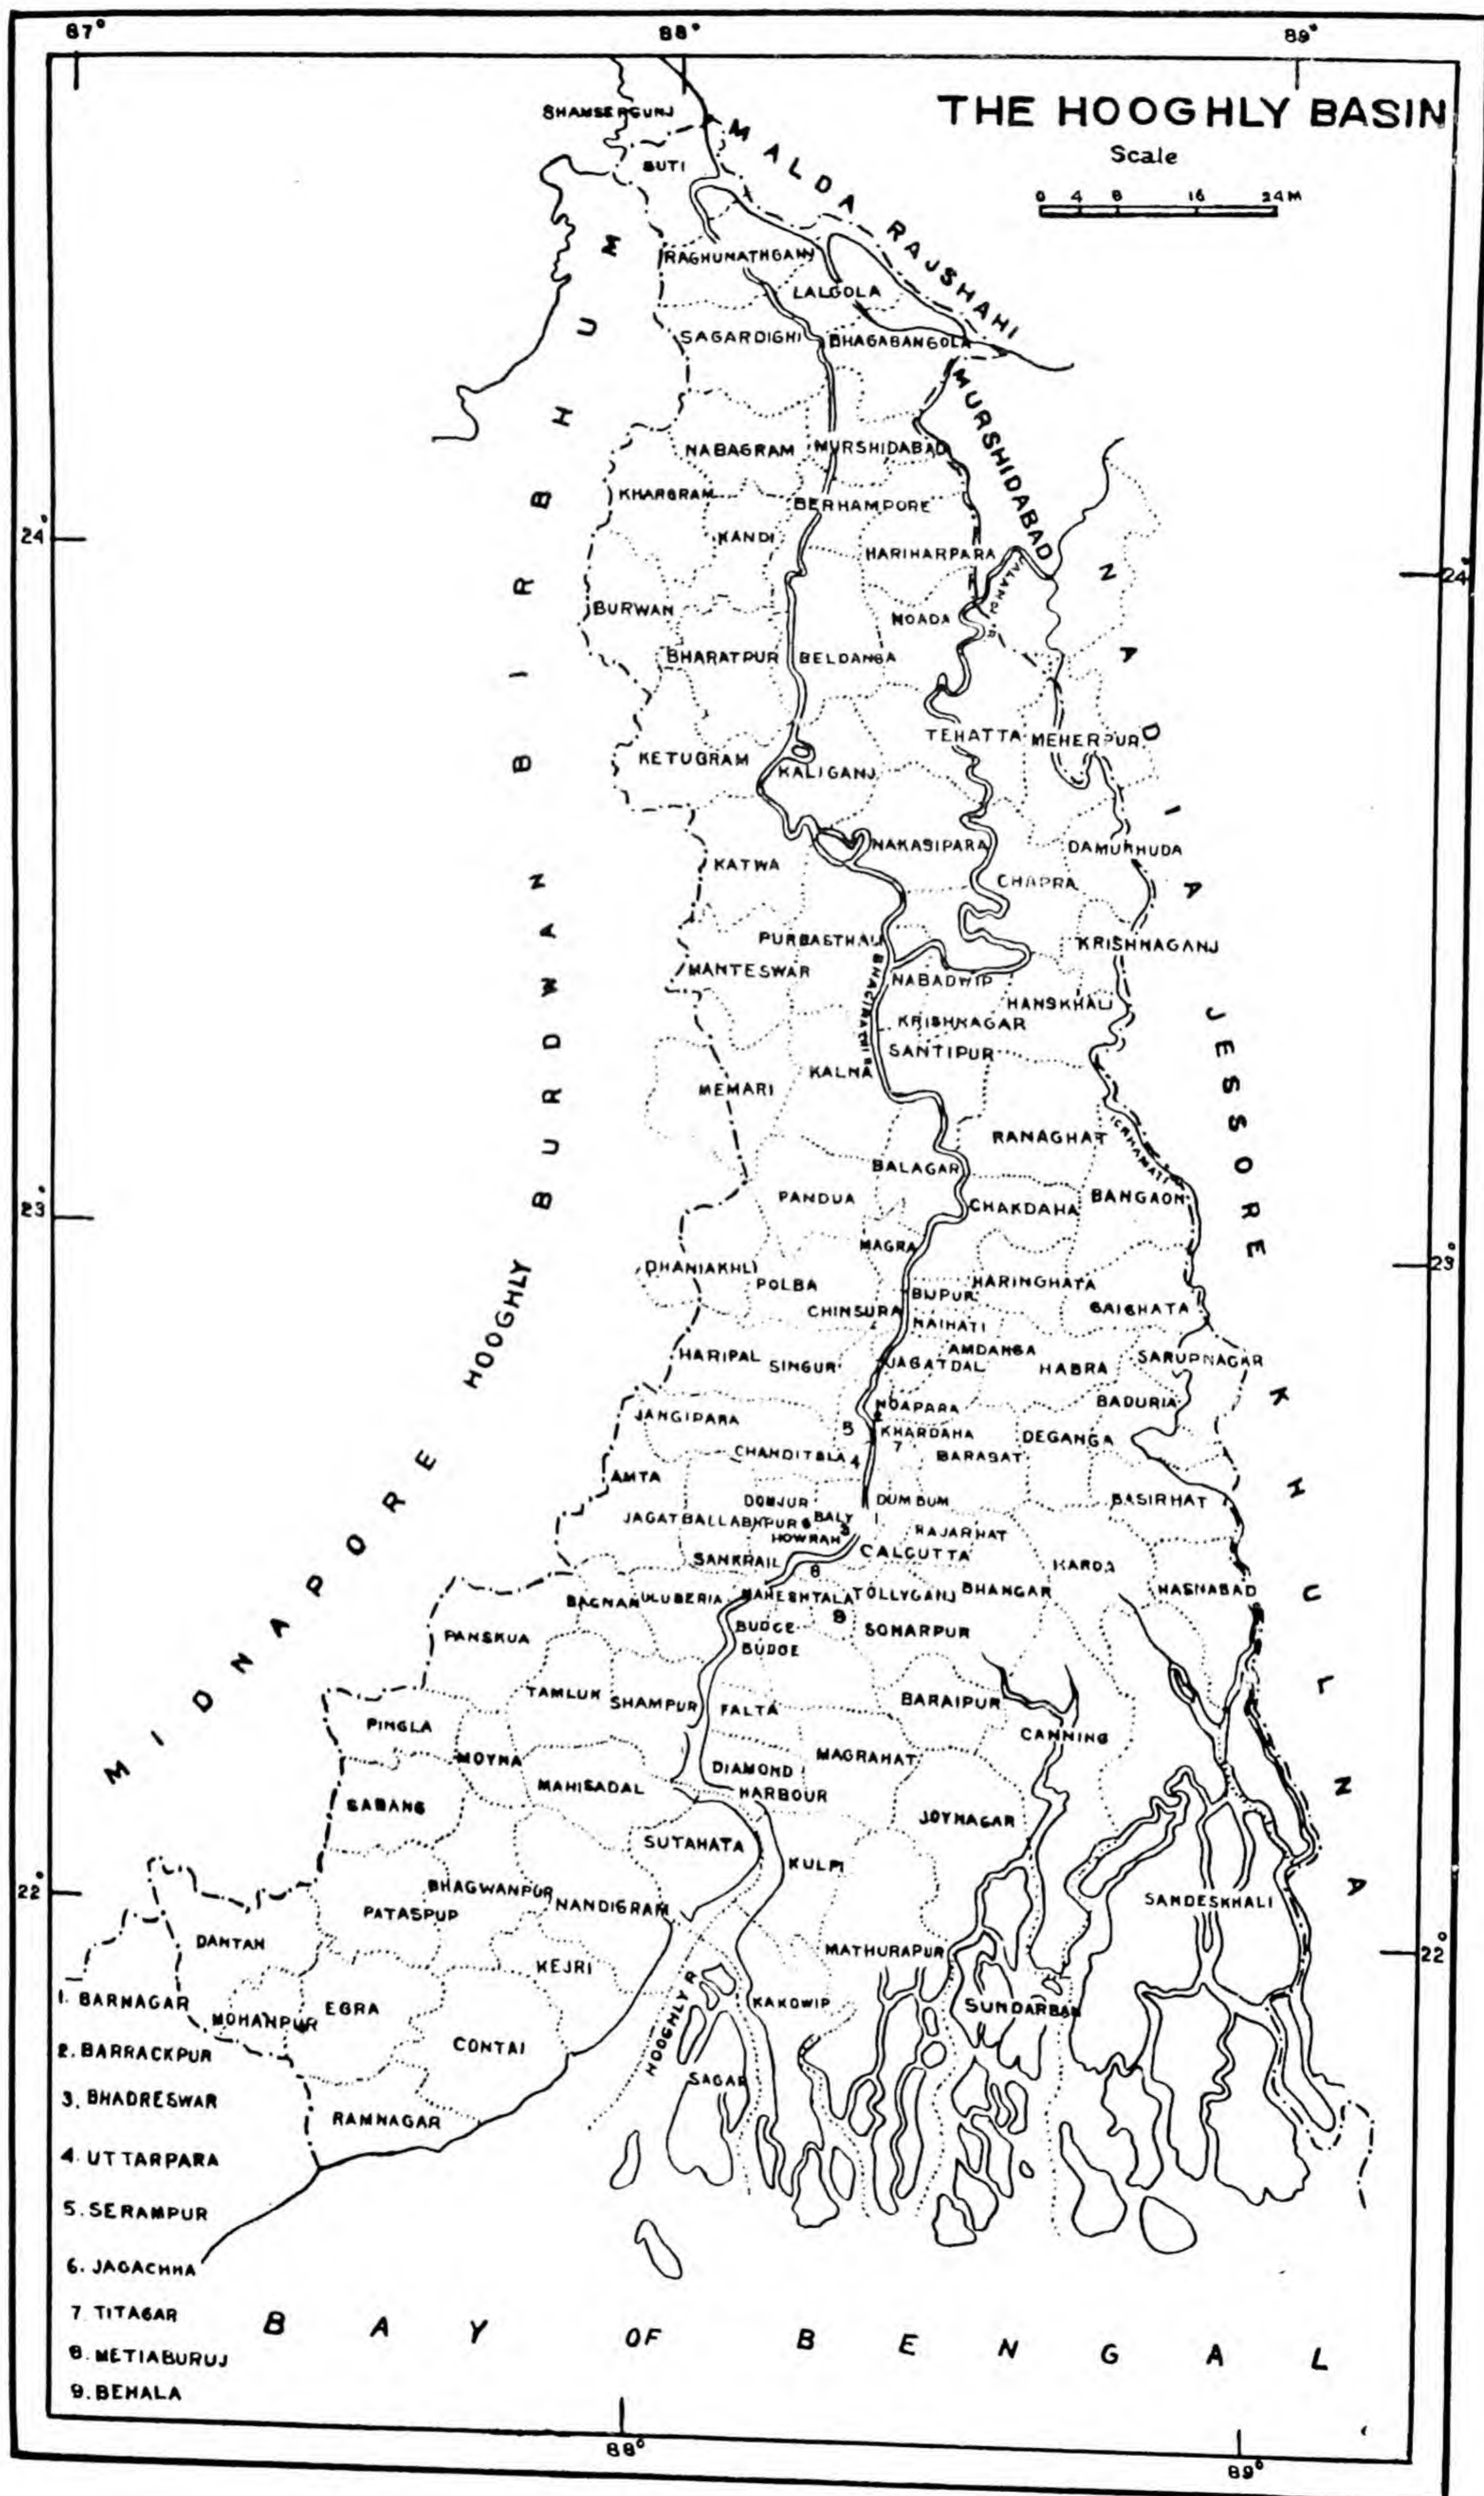

The tables in this Volume are intended to recognise a fact, which is that the Calcutta Industrial Region on the Hooghlyside is one demographic unit. This has been hinted at in 1921, 31 and 41 but never expressly avowed. The area treated in this Volume represents the extent of conurbation of Calcutta City. It has a certain demographic, economic, industrial and geographical unity the study of which will be facilitated by the way census statistics have been presented in this part of the Report for West Bengal, Sikkim and Chandernagore. All areas here considered are urban and study of the interstitial spaces between the administrative boundaries in which the towns and cities are located and the urban areas themselves can be undertaken with the help of Census of India Vol. VI. Part II—Tables for West Bengal, Sikkim and Chandernagore and the District Handbooks for Hooghly, Howrah and 24-Parganas. The Report for Calcutta city proper will be available in Part III of Census of India Volume VI, shortly to be published.
